Level 2

This is Dino, a sad and lonely dinosaur who had no friends. He lived on his own in a little cave by a beautiful river.

One day, he walked up to the beautiful river to drink water, after which he asked her if she had any friends.

"Yes, of course. Everyone has friends!", she exclaimed.

"The rain and the colorful rainbow are my best friends", she added.

"Multicolored fish also pay me a visit sometimes. Red, purple, yellow... They all are my friends too."

Hearing that, Dino's face faded. Looking at Dino's grief-stricken face, the river understood that he had no friends.

Suddenly a boat magically appeared in front of Dino. It was a very attractive shiny wooden boat.

The river said, "this boat is my gift to you Dino, it will take you to *Friendship Land*, a land full of new friends".

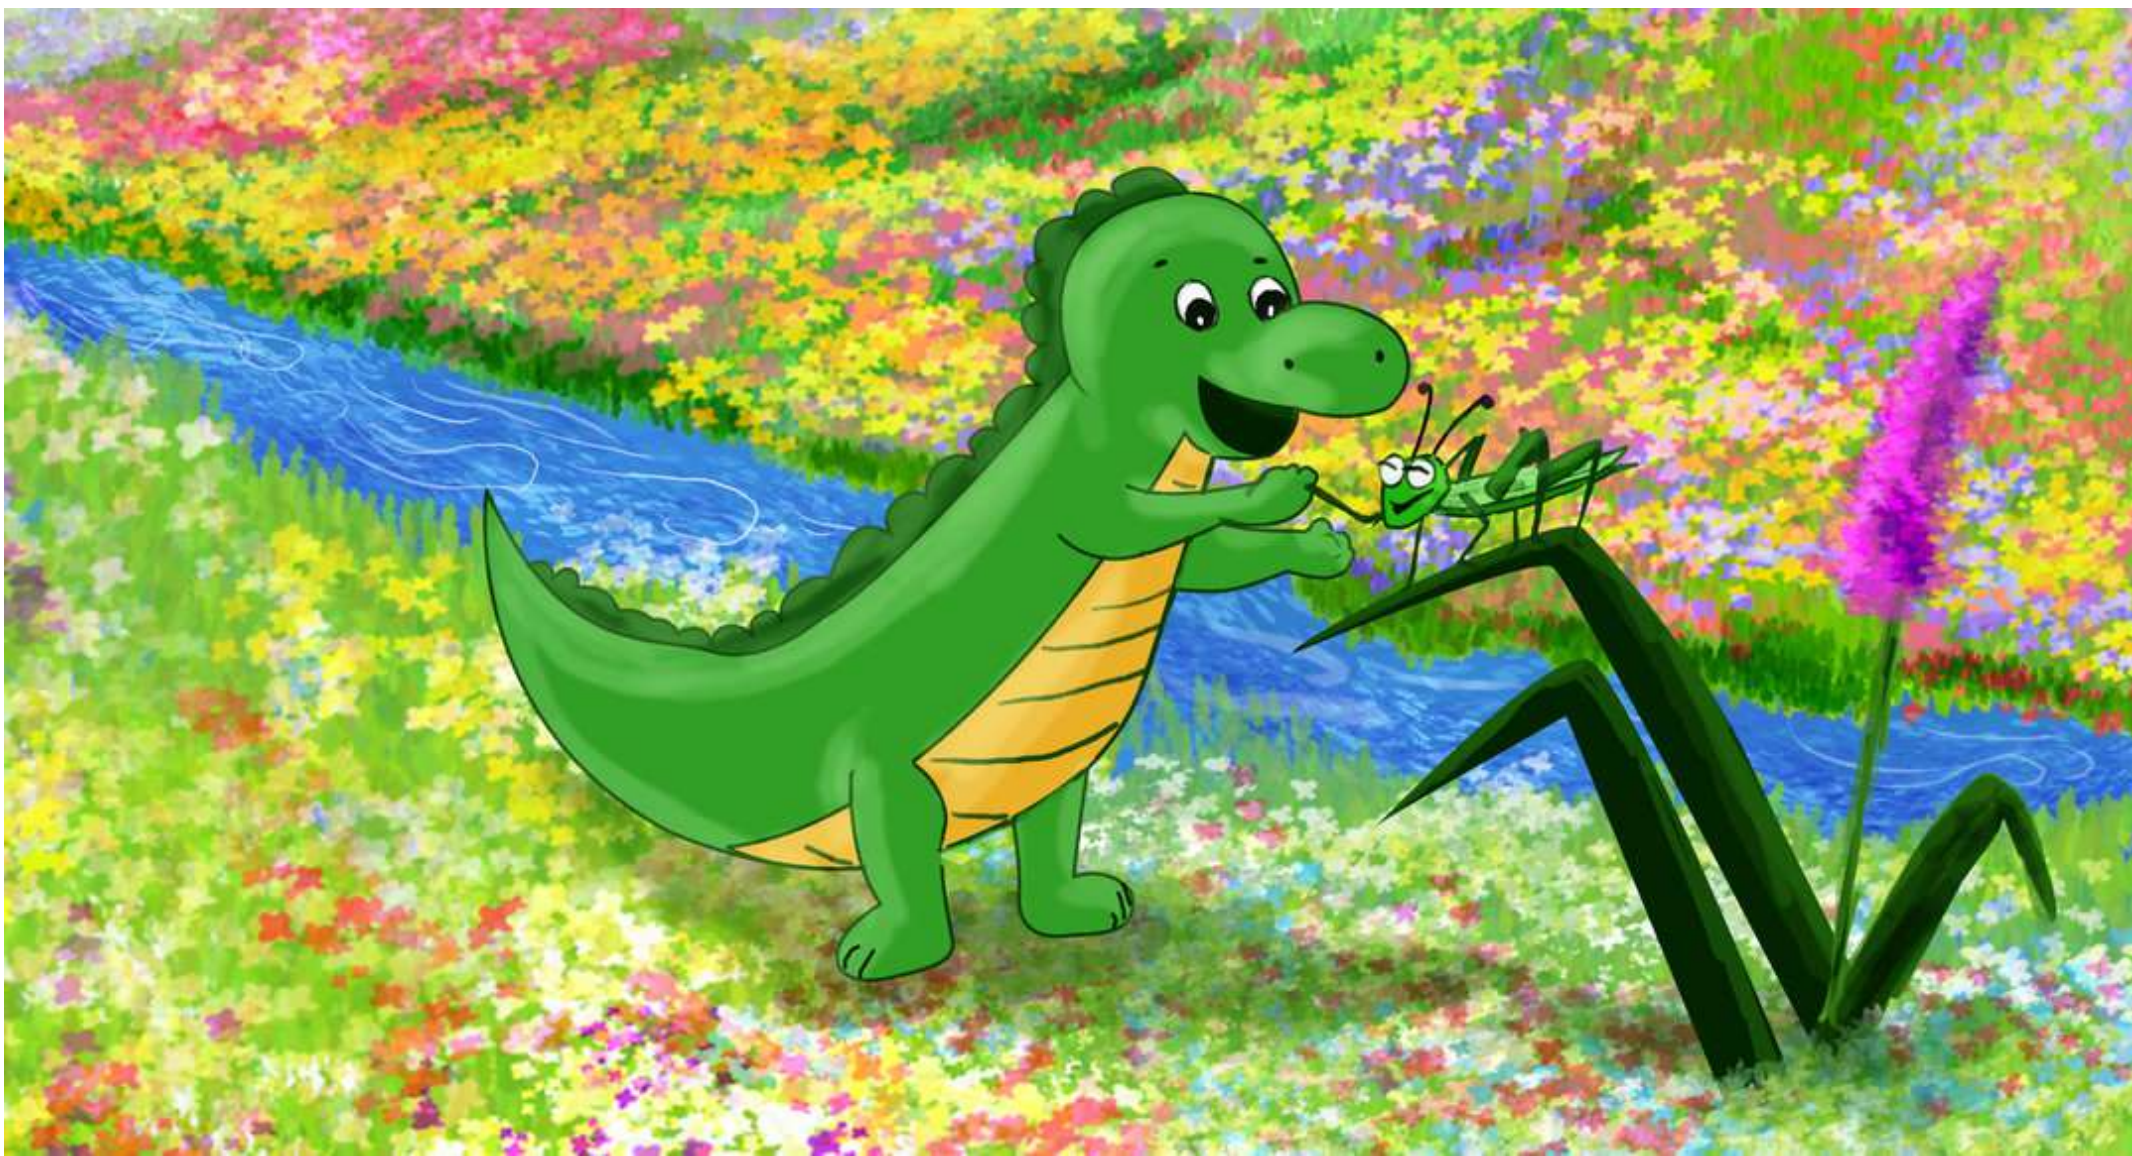

Dino thanked the river, promising that he would never forget her and sat on the magical boat.

He waved his cave goodbye and the boat slowly sailed him far, far away from his home.

Dino soon arrived at *Friendship Land*, the most beautiful place on the planet. He was so happy that he almost forget to thank the magical boat. He stepped out on the new land and kissed the boat goodbye.

His eyes had never seen such colorful flowers, nor had they seen a grasshopper before!

The grasshopper welcomed Dino and shook hands with him saying "I am Greeny, the grasshopper. Would you want to be friends with me?"

"Oh yes, yes, yes! I would love to be your friend Greeny!" exclaimed Dino, with excitement.

Soon, Dino made friends with the birds, bees, butterflies and flowers of *Friendship Land*. They would dance, sing and play together every single day and then sleep together on the flower bed at night.

Dino was never ever sad and lonely again because he had a land full of friends!
